Summary

AI/ML and Full Stack Developer skilled in Python, NLP, and scalable application development, focused on delivering efficient, user-centric, and impactful data-driven solutions. Eager to learn, adapt, and contribute to building scalable software solutions in a collaborative environment.

Education

Kongu Engineering College Aug 2024 – May 2028
***Bachelor's of Technology**: Artificial Intelligence and Data Science* ***CGPA:** 8.00*

Higher Secondary Jun 2023 – Apr 2024
Sri Jayendra Matriculation Higher Secondary School ***Percentage:** 85.84 %*

SSLC Jun 2021 – Apr 2022
SEVAI Shanthi Matriculation Higher Secondary School ***Percentage:** 71.2%*

Technical Skills

Programming Languages: Python, Java, C
Deep Learning Frameworks: TensorFlow, PyTorch, Keras
Web Development: JavaScript, React.js, Node.js, HTML, CSS
Database : MySQL, MongoDB
Libraries & Tools: NumPy, Pandas, Scikit-learn, OpenCV, Git, Docker

Projects

Smart AI Notes Summarizer **Aug 2025**
Artificial Intelligence ***Tech Stack:** Python, React, LLM, MongoDB*

Developed an AI-powered notes generator supporting text, speech, PDF, and image inputs, with multilingual capability across 18 languages, enabling automatic summarization, key point extraction, and easy content organization and quick retrieval.

Gamified Learning Platform **Sept 2025**
Flutter Application ***Tech Stack:** Flutter, HTML, CSS, JavaScript*

Built a lightweight, gamified STEM learning platform for rural users, featuring interactive videos, games, and quizzes. The system supports offline access for students and includes an online dashboard for teachers to track progress, manage content, and monitor performance.

AI Tamil Chatbot **Dec 2025**
Artificial Intelligence ***Tech Stack:**HTML, CSS, JavaScript, Python*

Developed a Tamil voice-enabled chatbot using Speech-to-Text, NLP, and Text-to-Speech to understand and respond to user queries in Tamil. The system provides information on Tamil language and culture, supports real-time voice interaction, includes Tamil calendar integration, and delivers accurate, context-aware responses.

Experience

Smart India Hackathon Participant Sept 2025 – Nov 2025
DeepMind ***India***

Developed an offline-first gamified learning platform for rural students with JS-based games and SVG animations, optimized for low-spec devices and poor connectivity, ensuring smooth performance, enhanced user engagement, and scalable content delivery.

Achievements

- Runnerup - Thinkathon'26 - **AI Coding Club**
- SIH-Finale Waitinglist - **Smart India Hackathon 2k25**

Certifications

- **IBM** Certified Generative AI
- **NASSCOM** Data Processing & Visualization
- **Infosys** JavaScript Certification
